NEW DELHI-2 (INDIA);

The 27th October 1952.

K. MITRA,
for Registrar General, India.

NATIONAL SAVINGS CERTIFICATES

Available in three different series, maturing after 5, 7 and 12 years. The yield is 3%, 3·57% and 4·16% simple interest, respectively, at maturity. Thus, in the 12 year-certificates money increases by 50% on maturity. Interest is free of income-tax and super-tax and is not taken into account in arriving at the total taxable income.

The certificates are obtainable from Post Offices doing Savings Bank business in denominations of Rs. 5, 10, 50, 100, 500, 1,000 and 5,000. An individual can invest upto Rs. 25,000, and two joint holders upto Rs. 50,000/-.

Full particulars obtainable from Post Offices, District Organisers of the Small Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers, or the National Savings Commissioner, Simla.

Deposits accepted in multiples of Rs. 100/- upto a maximum of Rs. 25,000 for a single depositor and Rs. 50,000 for two persons jointly. Interest at 3½% per annum (free of all taxes and not taken into account in assessing the total taxable income) is paid or remitted to the depositor's address every year. Deposits accepted at offices of the Reserve Bank of India at Bombay Calcutta, Delhi & Madras, and Branches of The Imperial Bank of India in other places transacting treasury business.

Full particulars obtainable from District Organisers of the Small Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers, or the National Savings Commissioner, Simla.

† Figures not available.

Explanation of symbols used :—B.—Births ; B.R.—Birth Rate ; C.—Cholera ; S.—Smallpox ; P.—Plague ; F.—Fever ; D.D.—Dysentery and Diarrhoea ; R.D.—Respiratory Diseases ; M.D.—Maternal Deaths ; D.R.—Death Rate ; I.D.—Infantile Deaths (included in total deaths).

REMARKS

The figures of births and deaths shown in this statement for week ending the 4th October, 1952, relate to 77 towns with an estimated population of 24,346 thousands. The total number of towns is 281 and their population is 4,764 thousands. Thus 63% of the total number of towns representing 70% of the total population is covered in this statement. The numbers of births and deaths recorded in these towns were 16,899 and 7,798 representing birth and death rates of 36·1 and 16·7 per thousand of population respectively.

(A) States (Parts A and C).—The data here relate to 52 towns with an estimated population of 20,858 thousands. Information about Assam, Bihar and West Bengal could not be included. The total number of towns is 235 and their population is 29,570 thousands. Thus 65% of the total number of towns representing 71% of the total population is covered. The numbers of births and deaths recorded in these towns were 15,312 and 6,971

representing birth and death rates of 38·2 and 17·4 per thousand of population respectively.

Anakapalle in Madras was the only town which had a high death rate of 53·2 per thousand of population and this high death rate was mainly due to deaths from cholera and fevers.

(B) States (Part B).—The data here relate to 25 towns with an estimated population of 3,488 thousands. The total number of towns is 46 and their population is 5,194 thousands. Thus 54% of the total number of towns representing 67% of the total population is covered. The numbers of births and deaths recorded in these towns were 1,587 and 827 representing birth and death rates of 23·7 and 12·3 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
